

EUAGELIA Digital Scholarly Companion

Digital companion full proof v0.1

Status: expanded digital scholarly companion v0.1, 2026-07-19.

How To Use This Companion

This companion is the digital research layer behind the Ukrainian and English paper books. The paper books are intentionally clean and print-safe; this file intentionally preserves repository paths, evidence notes, source snapshots, control files, checksums, and audit history.

For a normal reading experience, start with the paper books. For verification, start here and move logion by logion: card -> evidence note -> control files -> source witness inventory -> publication decision table.

Generated Machine Indexes

- output/digital-scholarly-companion/logion-cross-reference-index.tsv - all 114 logia with cards, evidence notes, controls, decisions, Greek status, and next actions.
- output/digital-scholarly-companion/source-witness-inventory.tsv - local source corpus inventory with categories and SHA256 checksums.
- output/digital-scholarly-companion/artifact-checksums.tsv - checksums for core publication artifacts and paper proofs.
- output/digital-scholarly-companion/audit-trail-index.tsv - major audit/pass/review files with checksums.

Clean-Reader Manifest

The frozen clean reader contains 37 printed units. Reader membership is controlled by `reconstruction/earliest-sayings-gospel/final-clean-reader-freeze-v0.1.md` and synchronized by `tools/qa_crosscheck.py`.

Layer	Path	Role
Ukrainian clean reader	<code>reconstruction/earliest-sayings-gospel/reconstructed-gospel-uk.md</code>	First paper-reader layer.
English clean reader	<code>reconstruction/earliest-sayings-gospel/reconstructed-gospel-en.md</code>	English paper-reader layer.
Coptic reader layer	<code>reconstruction/earliest-sayings-gospel/reconstructed-gospel-coptic.md</code>	Coptic source-facing layer for included units.
Greek reader layer	<code>reconstruction/earliest-sayings-gospel/reconstructed-gospel-greek.md</code>	Extant Greek plus clearly marked hypothetical retroversions.
Arabic literary layer	<code>reconstruction/earliest-sayings-gospel/reconstructed-gospel-ar-quranic-register.md</code>	Literary/theological reception layer, not a source witness.
Parallel edition	<code>reconstruction/earliest-sayings-gospel/parallel-edition.md</code>	Synchronized multilingual view of the frozen reader.

All-114 Logion Research Index

Each row links the core card and the currently known evidence/control apparatus. Reader text = YES means the logion or a marked core appears in the clean reader; it does not mean unqualified certainty.

Logion	Reader	Decision	Greek status	Card	Evidence	Controls
1	YES	INCLUDE_WITH_MARKER	P.Oxy. 654	[corpus/cards/logion-001.md](../corpus/cards/logion-001.md)	[reconstruction/earliest-sayings-gospel/notes/logion-001-evidence-en.md](../reconstruction/earliest-sayings-gospel/notes/logion-001-evidence-en.md)	None recorded

Source Witness Inventory

The local source inventory currently contains 136 files under `sources/primary_texts/`. The full machine-readable table is `source-witness-inventory.tsv`.

Witness family	Digital role
Coptic / NHC II,2	Main surviving complete-language witness for the Gospel of Thomas tradition used by the project.
Greek P.Oxy. 1	Early Greek fragmentary witness; direct Thomas witness where extant.
Greek P.Oxy. 654	Early Greek fragmentary witness; especially important for opening logia.
Greek P.Oxy. 655	Early Greek fragmentary witness; important but lacunose/uncertain in several places.
Canonical Greek controls	Synoptic/control channel, not Thomas manuscript evidence.
Translation controls	Open or protected translations used only according to rights/citation policy.

Cluster And Control Notes

Cluster notes prevent isolated decisions from distorting the reconstruction. They are especially important for motifs such as seek/find, family renunciation, wealth, beatitudes, living/dead/world, fire/kingdom, ritual practice, and thief/watchfulness.

- [reconstruction/earliest-sayings-gospel/notes/beatitudes-cluster-control-en.md](../reconstruction/earliest-sayings-gospel/notes/beatitudes-cluster-control-en.md)
- [reconstruction/earliest-sayings-gospel/notes/family-renunciation-cluster-control-en.md](../reconstruction/earliest-sayings-gospel/notes/family-renunciation-cluster-control-en.md)
- [reconstruction/earliest-sayings-gospel/notes/fire-kingdom-cluster-control-en.md](../reconstruction/earliest-sayings-gospel/notes/fire-kingdom-cluster-control-en.md)
- [reconstruction/earliest-sayings-gospel/notes/living-dead-world-cluster-control-en.md](../reconstruction/earliest-sayings-gospel/notes/living-dead-world-cluster-control-en.md)
- [reconstruction/earliest-sayings-gospel/notes/ritual-ethics-cluster-006-014-027-104-en.md](../reconstruction/earliest-sayings-gospel/notes/ritual-ethics-cluster-006-014-027-104-en.md)
- [reconstruction/earliest-sayings-gospel/notes/seek-find-cluster-control-en.md](../reconstruction/earliest-sayings-gospel/notes/seek-find-cluster-control-en.md)
- [reconstruction/earliest-sayings-gospel/notes/thief-watchfulness-cluster-control-21-103-en.md](../reconstruction/earliest-sayings-gospel/notes/thief-watchfulness-cluster-control-21-103-en.md)
- [reconstruction/earliest-sayings-gospel/notes/thomas-unity-monachos-cluster-en.md](../reconstruction/earliest-sayings-gospel/notes/thomas-unity-monachos-cluster-en.md)
- [reconstruction/earliest-sayings-gospel/notes/wealth-renunciation-cluster-control-en.md](../reconstruction/earliest-sayings-gospel/notes/wealth-renunciation-cluster-control-en.md)

Bibliography, Rights, And Commons Policy

- [bibliography/bibliography-working.md](#) - working bibliography with print keys.
- [bibliography/source-rights-register.md](#) - source-rights status table.
- [project/rights-and-citation-policy.md](#) - print/digital citation policy.
- [project/source-reproducibility-note.md](#) - source reproducibility note.
- [LICENSE.md](#) and [project/commons-dedication-and-use-policy.md](#) - commons / anti-ownership policy for the original EUAGELIA work.

The original EUAGELIA reconstruction, translations, commentary, prompts, tables, and research architecture are intended as a commons. External witnesses, modern editions, translations, facsimiles, and websites retain their own legal status.

Audit Trail

The current audit-trail index contains 64 project pass/audit/review files. Use audit-trail-index.tsv for checksums and exact file paths.

Major publication-stage reports include:

- project/full-ukrainian-book-proof-qa-appendix-typography-v0.1.md
- project/full-english-book-proof-qa-typography-v0.1.md
- project/english-appendix-editorial-quality-pass-v0.1.md
- project/full-book-assembly-typesetting-pipeline-v0.1.md
- project/final-bibliography-rights-verify-v0.1.md
- project/publication-remediation-plan-2026-07-18.md

Reproducibility Checklist

1. Run `python3 tools/qa_crosscheck.py`.
2. Regenerate paper and companion sources with `python3 tools/assemble_full_book_sources.py` and `python3 tools/generate_digital_companion.py`.
3. Render proofs with `python3 tools/render_full_book_proofs.py`.
4. Compare checksums in `artifact-checksums.tsv` and `output/render-log-full-book-proofs-v0.1.md`.
5. Review all changed files with `git status --short` and `git diff` before release.

Remaining Digital Work

- Turn this Markdown/PDF proof into a polished HTML or static-site companion with better browsing, filters, and back-links.
- Add final production checksums only after final copyedit and typesetting decisions.
- Add a final external-source redistribution review before publishing downloadable source snapshots.
